## DESCRIPTION

The SensiLUM wireless integrated sensor family enables real-time occupancy detection, daylighting harvesting, and individual or group control of luminaires. Fully compatible with the Wattstopper PLUS System, SensiLUM fits into an industry-standard PG-7 (0.5 inch) trade-size knockout in any luminaire.

SensiLUM sensors offer 0-10V dimming, and DALI control options.

When used with the Wattstopper PLUS System, the SensiLUM allows for a sensor-rich smart network that users can leverage as their technology infrastructure for entry into smart building and IoT applications.

Digital lighting solutions may qualify for commercial lighting rebates on new construction or retrofit projects.

## FEATURES

- Unique form factor enables easy integration in any architectural luminaire
