

ALLOYLED

RazorLine™ Neon 300 LED Tape Light

Perfectly Diffused, Ultra-Narrow Accent Lighting

RazorLine Neon goes where others can't. It fits into the tightest spaces with limited surface areas, producing pure white light with no hotspots — even on high-gloss surfaces. It's a perfect solution for accent and task applications, such as drawers, super-small coves, toe kicks, or anywhere you want the smallest footprint you can get. Paired with the company's designated aluminum channel and patent-pending, UL tested and approved AmpChamp™ Connector, it's a simple linear solution for an unlimited number of long-lasting design options.

0.24 in. wide

Features and Benefits

- The lowest profile, hotspot-free solution on the market today
- Thinner than COB products by 30 - 50% – a great COB upgrade
- Clean white appearance when off versus dark yellow of COB tape
- Continuous, linear beam of 100% diffused light
- Compatible with Alloy LED AmpChamp™ connectors for secure, maintenance-free connections
