8. do not USE OUTDOORS.

BOX CONTENTS

• SUSPENSION KIT WITH CANOPY (2)

• POWER FEED (1)

INSTRUCTIONS

1. Turn off the power before installation, check whether the mounting surface is firm, and then fix the mounting bracket on the mounting surface.

2. Remove the upper cover of the lamp, remove the anti-pull connector, and pass the power cord through it in sequence as shown below.

3. Pass the power cord through the two-hole hanging plate, twist the main end ground wire and the ground wire on the power cord assembly together and fix them on the installation bracket using the screws.

4. Wire accordingly to usage requirements.

5. Use one end of the hanging rope and screw it into the mounting bracket to fix the hanging plate.

6. The other end of the hanging rope assembly fixes the lamp body.

7. use cable ties to organize the sling and power cord, and the installation is complete.

8. The installation is completed after wiring according to the wiring section of the hoisting installation instructions.
