

Lighting for **MRI** applications

Trace-lite specializes in solving the most **complex lighting challenges** in healthcare environments. MRI and imaging suites require **highly specialized solutions** due to the equipment's sensitivity to electromagnetic interference (EMI).

Our MRI Suite LED lighting products are expertly engineered with **non-ferrous materials** and feature **remote mounted drivers**, ensuring safe, reliable performance in MRI imaging rooms.

Trace-lite has multiple products to suit your MRI application:

- **Recessed Flat Panels**
- **Scenic Recessed Flat Panels**
- **Downlights**
- **Undercabinet Lighting**
- **Remote Drivers**

Lighting for **MRI** applications

All Trace-lite MRI Suite LED lighting products feature **non-ferrous materials** and **remote mounted drivers**, ensuring safe, reliable performance in MRI imaging rooms.

MAI

LED Recessed Flat Panel

- 1’ x 4’, 2’ x 2’ and 2’ x 4’ sizes
- 4,000 to 25,000 lumens
- 2700K- 5000K CCT
- Recessed flanged or recessed grid mounting
- Optional IP65 Rating

MAK

LED Recessed Flat Panel

- 1’ x 4’, 2’ x 2’ and 2’ x 4’ sizes
- 5,000 to 13,000 lumens
- 2700K- 5000K CCT
- Recessed grid mounting
- IP65 Rated, IC Rated, ISO 5 Certified

MAM

Scenic LED Recessed Flat Panel

- Features scenic landscapes to keep patients calm during the imaging process
- 2’ x 2’ and 2’ x 4’ sizes
- 2,000 to 12,000 lumens
- 2700K- 5000K CCT
- Recessed grid mounting

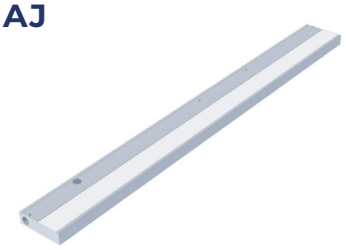

MAL

LED Recessed Downlight

- 5” or 8” aperature
- 1,000 to 4,300 lumens
- 3000K- 5000K CCT
- Optional IP65 Rating

MAJ

LED Under Cabinet Lighting

- 12”, 18”, 24”, 36” and 48” lengths
- 1,000 to 4,300 lumens
- 2700K- 5000K CCT
- Optional rocker switch for convenient on/off control

MRD

Remote Driver Box

- Provides power from outside the shielded MRI room
- Available in 1 to 9 driver configurations
- 0-10V 1% Dimming driver
- Individual quick-connects provided on each driver
