

LED MicroPot™

3W | 24V | Dimmable | IC Type

LED MicroPot is a 1½" aperture recessed pot light that provides quality illumination for ambient accent lighting suitable for use in showcases, kitchen cabinets, corridors/hallway accent lighting, restaurant millwork or wine cellars.

The fixture is installed in an aluminum housing which allow for enclosed wiring and the fixture to be installed where insulation is present. Housing includes a strain relief to secure electrical cables and two torsion clips for enhanced rigidity to recessed surface. The fixture is provided with medium lens beam spread. MicroPot is IC rated, suitable for indoor use only and damp locations.

This recessed light outputs a warm white (3000°K) colour temperature which provides up to 202 lumens with a colour rendering index (CRI) of 85 and 50,000 hours LED life.
