

INVISIBLE SLOT BUNDLE

Recessed Mount Channel Bundle

For seamless lines of light that blends directly into the wall or substrate, the invisible channel is a premium solution to applications where modern and clean looks are a must. Simply install during the new construction drywalling phase by perfectly blending the channel into its surroundings. Once completed, all you are left with is a stunning line of light seamlessly incorporated into the wall or substrate.

- Recessed channel extrusion best suited for drywall applications
- Create seamless lines of light that blends into existing substrates
- Frosted, UV & flame resistant lens protects light source while evenly diffusing light
- Anodized aluminum provides excellent heat dissipation
- Field cuttable channel and lens
- Compatible with 10-12mm wide tape light with HD connectors
