RGBW, High Power, 30° x 60°, 1219 mm (4 ft)

# Exterior compact linear grazing luminaire with intelligent RGBW light

Graze Compact Powercore, RGBW is a high-performance, exterior linear luminaire designed to highlight architectural features like molding details, archways and windows up to two stories high. Graze Compact RGBW luminaires adds a separate white LED creating better-quality whites compared to RGB. Multiple luminaire lengths and beam angles support a large range of façade or surface illumination applications. The brand new low-profile housing, connectorized cabling, a universal power input range, and direct line voltage make Graze Compact luminaires easy to install and operate.

- Tailor light output to specific applications—Available in two standard lengths (1 and 4 ft), and three standard 10° x 60°, 30° x 60°, and 60° x 60° beam angles.
- Ultra compact form factor—Graze Compact's ultra-low profile is half the size of Graze, allowing it to fit discretely into almost any layout, from simple to elaborate.
- Innovative optical design features fully mixed light directly out of the luminaire. This allows for smaller setbacks than many other luminaires.
- Improve color consistency between all LED luminaires in a family with Chromasync technology. During the manufacturing process a calibrated light measurement device creates an algorithm to define a common color gamut for an entire family of LED luminaires. When Chromasync is enabled, color consistency between luminaires is achieved without having to manually adjust color points on each luminaire.
- Integrates patented Powercore technology that controls power output to luminaires directly from line voltage – rapidly, efficiently, and accurately.
   The Color Kinetics Data Enabler Pro merges line voltage with control data and delivers them to luminaires over a single standard cable, dramatically simplifying installation and lowering total system cost.

- Graze Compact provides years of reliable use under rugged conditions.
   Graze Compact raises reliability even further with more protection from corrosion by meeting ASTM B117 standard and ANSI C136.31-2010 standard with a 3G vibration rating.
- Works seamlessly with the Color Kinetics full range of controllers, including iPlayer 3, iPlayer 4, Antumbra iColor Keypad, and ColorDial Pro—as well as third-party controllers.
- Convenient push-and-click connectors let you easily and rapidly install Leader Cables and Jumper Cables. Constant torque locking hinges offer simple and consistent position control from various angles.
- Customizable accessories Customize your Graze luminaire with a choice of accessories: mounting arm, masking shield, symmetric louver, and masking tray. Mounting arm available in three sizes.

For detailed product information, please refer to the Graze Compact Product Guide at www.colorkinetics.com/global/products/rgb/graze-compact-powercore-rgbw-gen2

# **Specifications**

Due to continuous improvements and innovations, specifications may change without notice.

#### **Output**

| 30° x 60°                       |
|---------------------------------|
| J0 × 00                         |
| 2280                            |
| R 660 / G 1664 / B 428 / W 1372 |
| 67                              |
| Red/Green/Blue/White            |
|                                 |

#### **Electrical**

| Input Voltage                          | 100 to 277 VAC, auto-ranging, 50/60 Hz            |
|--|---|
| Power Consumption                      | 33.6 W  |
| (Maximum at full output, steady state) |   |
| Surge Limits ¶                         | 2 kV maximum differential (L to N)                |
|  | 4 kV maximum common (L to Gnd or N to Gnd)        |
| For additional Surge Protection Re     | quirements for LED Lighting Systems, please refer |

Control

| Interface                                     | Data Enabler Pro (DMX or Ethernet) |
|---|------------------------------------|
| Control Channels                              | 4 channels per 1 ft section        |
| For additional Control Channel information, p | please refer to https://           |
| colorkinetics helpdocs io/article/fv5rkpvclg  |                                    |

#### Control System

Works seamlessly with the Color Kinetics full range of controllers, including iPlayer 3, iPlayer 4, Antumbra iColor Keypad, and ColorDial Pro—as well as third-party controllers.

Remote Monitoring & Management Works with Interact Landmark

#### **Physical**

| Dimensions               | 45.05 x 1260.65 x 42.2 mm (1.77 x 48.06 x 1.66 in) |
|--------------------------|--|
| (Height x Width x Depth) |  |
| Weight                   | 2 kg (4.41 lb)                                     |
| Housing Material         | Extruded anodized aluminium                        |
| Lens                     | Glass  |
| Luminaire Connections    | Integral male/female waterproof connectors         |
| Mounting                 | Multi-positional, constant torque locking hinges   |

#### **Temperature Ranges**

-40 to 50 °C (-40 to 122 °F) Operating -20 to 50 °C (-4 to 122 °F) Startup -40 to 80 °C (-40 to 176 °F) Storage

#### Vibration Resistance

Complies with ANSI C136.31, 3G

Mechanical Impact IK07 (IK06 2ft and 3ft)

#### **Corrosion Resistance**

Complies with ASTM B117 standard for > 1,500 hours

Humidity 0 to 95%, non-condensing

#### Thermal Protection enabled

For additional Thermal Protection information, please refer to https://colorkinetics.helpdocs.io/article/sh301ducix

#### **Luminaire Run Lengths**

To calculate luminaire run lengths and total power consumption for your specific installation, download the Configuration Calculator from www.colorkinetics.com/support/install\_tool/

#### **Certification and Safety**

<sup>† 305</sup> mm (1 ft) 2700 K lumen output measurements comply with IES LM-79-08 testing procedures. All other measurements including 610 mm (2 ft), 914 mm (3 ft), and 1219 mm (4 ft) lengths are estimated based on the 305 mm (1 ft) 2700 K measurements.

<sup>§</sup> Lxx = xx% lumen maintenance (when light output drops below xx% of initial output). All values are given at B10, or the median value where 90% of the LED population is better than the reported or calculated lumen maintenance measurement.

<sup>¶</sup> Minimum surge limits per IEC 61547, tested in accordance with IEC 61000-4-5.

<sup>§§</sup> Efficacy measurements are estimated based on the 305 mm (1 ft) measurements.

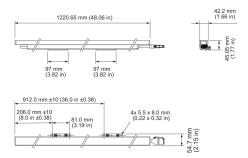

<sup>¶¶</sup> Lumen maintenance figures are based on lifetime prediction graphs supplied by LED source manufacturers. Whenever possible, figures use measurements that comply with IES LM-80-08 testing procedures. In accordance with TM-21-11, Reported values represent the interpolated value based on six times the LM-80-08 total test duration (in hours). Calculated values represent time durations that exceed six times the total test duration.
