### Features

#### Body

Constructed of aluminum which provides superior strength and rigidity, the body features an aesthetically pleasing smooth cylindrical shape with dual finish color.

#### Lamping

E26 porcelain lamp socket for 120V PAR20 / R20 / PAR16 / A19 lamps, 50W max.

#### Adjustability

Lamp housing is adjustable for track models, controlled with an adjustable link that provides 90° tilt and 330° rotation. Lamp holder bracket is height adjustable up to 2".

#### Beam Spread

The height adjustable screw provides for a variable beam spread angle ranging from 20° to 110°.

#### Dimming

Fixture is dimmable when used with

industry standard TRIAC dimming controls and compatible dimmable lamps.

#### Mounting

Available in mounting onto 1- and 2-circuit track systems (refer to ordering guide for compatible connectors).

#### Compatibility

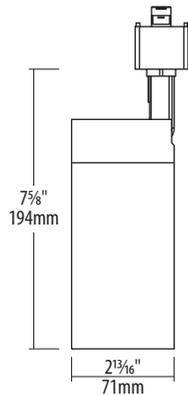

Available track connectors for compatibility with A-Line, Halo®, Liteline®, Ligholier® and Powergear® track systems.

\* Shown with 1" snoot.

### Description

The DINE track was specifically designed for restaurants and dining applications, allowing for ideal control of visual comfort. Low-glare lighting and flexibility to make on-site adjustments allows for perfect horizontal or vertical illumination for both high a low ceilings.

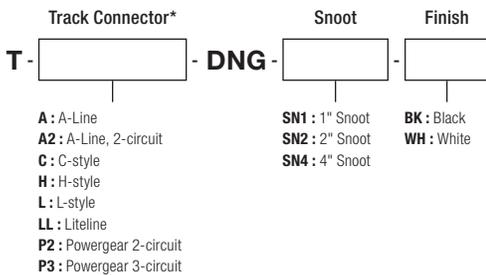

\* Drawing does not include snoot.

**Notes:** Accessories are sold separately. For additional options please consult your Liteline representative. All trademarks are the property of their respective owners. Due to our continued efforts to improve our products, product specifications are subject to change without notice.
