ACCESSORIES

CHANNEL, END CAPS, MOUNTING CLIPS

LED-TP-AL1607
Aluminum profile for LED tape, with diffuser to soften light. Can be recessed or surface mounted. 5/8" x 1/4" x 72".

LED-TP-AL1607-EC
End cap for LED-TP-AL1607, 2-pack.

LED-TP-AL1607-MC
Mounting clips for LED-TP-AL1607, 4-pack.

2.1 DC WIRING

LED-DIM-24V
LED touch dimmer, 24V, for use with non-dimming drivers. Surface mount, doesn't need to be wired into wall.

LED-SP-4
4 way DC splitter harness for up to 4 runs, 24V. Only applicable with DC 2.1 wiring.

TAPE EXTENSIONS

LED-TP-BC
An 18" flexible blank connector used to connect two single color LED tape runs.

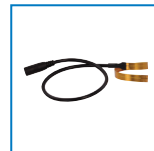

LED-TP-XC
Connect four single or RGB color LED tape runs.

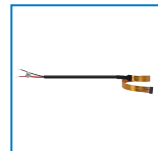

LED-DC21-72-PF
72" power feed extension, DC 2.1 male to bare leads. Maximum 10' to first fixture. For use with LED-TP-PF to provide an easy disconnect between fixture and driver. Used for bare leads driver connection.

REQUIRED POWER FEEDS

LED-TP-PF
Power feed for single color LED tape light, 24V. Required for all drivers with DC 2.1 jack.

LED-TP-BL-EL
Power feed for 24V tape light. Required for bare lead connection to drivers.

INDUSTRY LEADING DIMMING

HWB-DIM-EDC-24V-(25W/50W/96W)

Liteline's EDC driver is the best in class dimmable driver that allows for optimal dimming performance with constant voltage fixtures. This 24V hardwired driver is available in 25, 50, and 96W and is compatible with forward phase, ELV and TRIAC dimmers.

DIMMING

HWB-DIM-EDC-24V-(25W/50W/96W)
24V Electronic hardwire driver. 25W, 50W and 96W options available.

LED-HWBDIM(2/3)-24-40
24V, 40W LED dimmable hardwire driver with DC 2.1 jack. 2 or 3-wire, Lutron® driver.

NON DIMMING

LED-HW3-24V-60W
24V hardwire driver with bare leads.

LED-HWB-24V-(24W/36W/60W)
24V, 24W hard wire box driver with DC 2.1 jack. 24W, 36W and 60W options available. Lutron® driver.

LED-DVR-24V-(24W/36W/60W)
24V, 24W Plug-in Driver with DC 2.1 jack. 24W, 36W, 60W options available.
