

Hanging Brackets (optional) - 1 bracket w/screws

AL-50-19-9971-WH

AL-50-19-9971-ALP

1. **NOTE: The Hangr Closet Bar is a low voltage DC fixture. DO NOT CONNECT TO 120V AC POWER.**
2. Before installing the Hangr Closet Bar, test proper functionality by connecting the fixture to DC power and turning the power on.
3. Use a tape measure to determine height and placement of the mounting rings (A). Mark the screw positions.
4. Inside the mounting ring position on the end nearest to DC power, drill a hole large enough to accommodate the power wire.
5. If using hanging brackets (optional), position the brackets on the closet bar.
6. Slip the mounting rings onto the ends of the bar.
7. Connect and run DC power wire into the wall.
8. Attach the bar to the wall using screws and the mounting rings in the premarked positions.
