

ALLOY LED® Specifications

Polymer Low-Profile Surface-Mount Channel

The Polymer Low-Profile Surface-Mount Channel is wide and very low-profile, which makes it ideal for areas that call for a discreet light fixture. This polymer channel is semi-flexible for easy handling and can be used without a diffuser cover as a mounting track.

- Channel covers protect LED tape light
- Frosted diffuser covers provide smooth light diffusion
- Easy to handle flexible polymer
- Lightweight

All parts are sold separately.
