

#### Suitable for low profile LED lights up to 4"

The FF109-200 is a cone-shaped intumescent enclosure which has been designed to help protect openings for **4**<sup>*n*</sup> **low profile LED downlight fixtures**. The high expansion and insulating properties of the material ensure that both, flame spread and heat transmission, are stopped for 60 minutes. The **flexible material** allows the cover to get rolled up for easy retrofit or new construction installation.

# **Key Benefits**

- ⇒ Easy Installation can be fitted in seconds no screws, drilling or additional sealant required
- ⇒ Can be folded and fitted from above or below the ceiling
- $\Rightarrow$  60 minute protection
- ⇒ Flexible material enables the cover to be fitted around obstacles or retro-fitted
- $\Rightarrow$  Enhances the acoustic protection of the ceiling
- ⇒ Maintenance free
- $\Rightarrow$  Lightweight
- ⇒ The only fire tested solution for retrofit applications
- ⇒ Fits most 4" low profile LED downlight fixtures and LED wafer lights

# Approvals

ETL—Intertek certified to maintain the fire rating (1 hour) of fire-rated floor/ceiling assemblies.
